## Professional Summary

Motivated and detail-oriented engineering graduate specializing in **Computer Science and Engineering**, with strong problem-solving skills and hands-on experience through academic projects and internships. Seeking an entry-level position to apply technical skills and contribute to organizational growth.

## Technical Skills

- **Programming:** Java (Data Structures and Algorithms)
- **Database Management System:** Relational Databases (SQL, MySQL).
- **Web Development:** HTML, CSS, JavaScript.
- **Developer Tools:** Visual Studio Code, IntelliJ IDEA, Anaconda, Google Colab
- **Version Control:** Git, GitHub
- **Course Work:** Operating Systems, Cloud Computing, Object Oriented Programming, Computer Networks, DBMS.

## Education

**B.E. / B.Tech in [Computer Science and Engineering]** 2021 – 2025  
Rajarajeswari College Of Engineering, Bengaluru CGPA – 7.84

**Pre-University Education[PCMB]** 2018 – 2020  
Sai Spoorthi PU Science College, Bidar Percentage – 80.60 %

## Academic Projects

### Smart Campus Management System

*Technologies: Java, JDBC, MySQL*

- Developed a console-based **Smart Campus Management System** using **Core Java, JDBC, and MySQL**, enabling role-based access for Admin and Student users.
- Implemented modules for **building and classroom management, classroom booking, and booking cancellation**, ensuring data integrity using **foreign key constraints and relational database design**.
- Designed a **classroom booking system with double-booking prevention and booking history tracking**, improving resource management within the campus environment.

### Car Rental System

*Technologies: Java, OOP, File Handling*

- Developed a Car Rental System in Java utilizing Object-Oriented Programming (OOP) principles for structured and maintainable code.
- Implemented car booking and rental slip generation, improving user experience and reducing manual processing by 60%.
- Applied core OOP concepts including classes, objects, inheritance, polymorphism, encapsulation, and abstraction to simulate real-world scenarios.

## Experience

**Knowx Innovations Pvt. Ltd.** – Trainee Engineer 02/2025 – 05/2025

- Contributed to backend development of a campus management system using **Core Java, JDBC, and MySQL**, implementing modular architecture and clean OOP principles.
- Designed and optimized relational database schemas with **primary/foreign key constraints** and implemented efficient **JDBC-based CRUD operations** to ensure data integrity and reliability.
- Enhanced application security and performance by integrating **SHA-256 password hashing** and implementing validation logic to prevent booking conflicts and ensure consistent system behavior.

## Certifications

- Trainee Engineer – Knowx Innovations Private Limited
